Dear President,

Dear Secretary General,

The Organizing Committee of the 16th International Pyrenees Cup Slalom cordially invites you to attend the canoe slalom competitions that will be held in March of 2026.

The Pyrenees range of mountains is a tourist area, overlapping the border of France with Spain that will host the participants in a friendly atmosphere. The host cities of La Seu d'Urgell and Pau have a common tradition of cooperation starting on the Twelve Century. The bishop of Urgell, the Count of Bearn has had in the middle age a closer relationship during more than two hundred years.

Now, in another register, **the canoe slalom**, two efficient organization crews in two performance venues bring a new opportunity to strength the ties on both sides of the mountains. The travelling distances between the competition sites are approximately four hours and make the **two races of the International Pyrenees Cup very attractive each year**.

The two competition races will be **the first two ICF Ranking Slalom competitions** of the year in Europe, with the same race format compared to previous editions and before the ICF Canoe Slalom World Cup Final in La Seu in September of 2026. The period at the very beginning of the sportive season will be conducive to slalom training and improving technical performances. The individual inscription gives wider opportunities to participate and combine sport schedule.

The International Pyrenees Cup Organizing Committee welcomes you to join our 2026 events.

Parc Olímpic del Segre

The Parc Olímpic del Segre is constructed in a branch of the river Segre, which was re-channelled after the damage caused by the exceptional flood of 1982. The slalom course's specific features are as follows:

- Length : 220 m
- Drop : 6,4 m
- Flow : 10 m³/s
- Course features : concrete bottom, banks and obstacles of natural boulders
- Spectators capacity : 5.000 people

The Competition Course is accompanied by a beginners course which is 130 m long with a drop of 1,5 m. The designed flow ranges from 3 to 10 m³/s.

The design of the artificial canals includes a system of complementary canals and mechanical conveyor belts which enable canoeists to return to their starting point without having to leave their boats. The dynamic conception of the whole facilities leads to intensive use all year round and separation of canoeists according to their levels of skill and ability.

The drop in the Slalom course is created naturally via channels that branch from the river Segre, with a very gentle slope. The feeder canal, 165 m in length, and mainly the flat water canal, 650 m in length and 20 m in width, are set aside for training in flat water canoeing and the necessary practice that sport lovers require in waters with a steady current.

The Pau Pyrenees White Water Stadium is constructed in a branch of the river « gave de Pau » and lets its users choose between 3 different ways of functioning : gravitational, mixed (part of the water is recirculated) or only with pumps.

The slalom course specific features are as follows:

- Length : 280m
- Breadth : 15m
- Height drop : 2%, 4,8m from start to finish
- Flow : 7 to 14 m³
- Conveyors belt transports participants from finish to start point without leaving boats
- Courses features: concrete bottom, banks and obstacles of natural boulders
- Spectators capacity : 8 000 people
- Startpool : 5 000 m²
- Finishing Lake: 1800 m²

Athlete also have the possibility to gather the « gave de Pau » from our finishing lake via a 200m long course equipped with gates. This part of the stadium is also used as a warmer / beginners course.

How to get to Pau :

GPS coordinates > lat 43.30 / long : -0.37

Motorways:

- A65 Bordeaux - Pau (2h30)
- A64 Biarritz - Pau (1h30)
- A64 Toulouse - Pau (2h00)

Pau Pyrénées Airport :

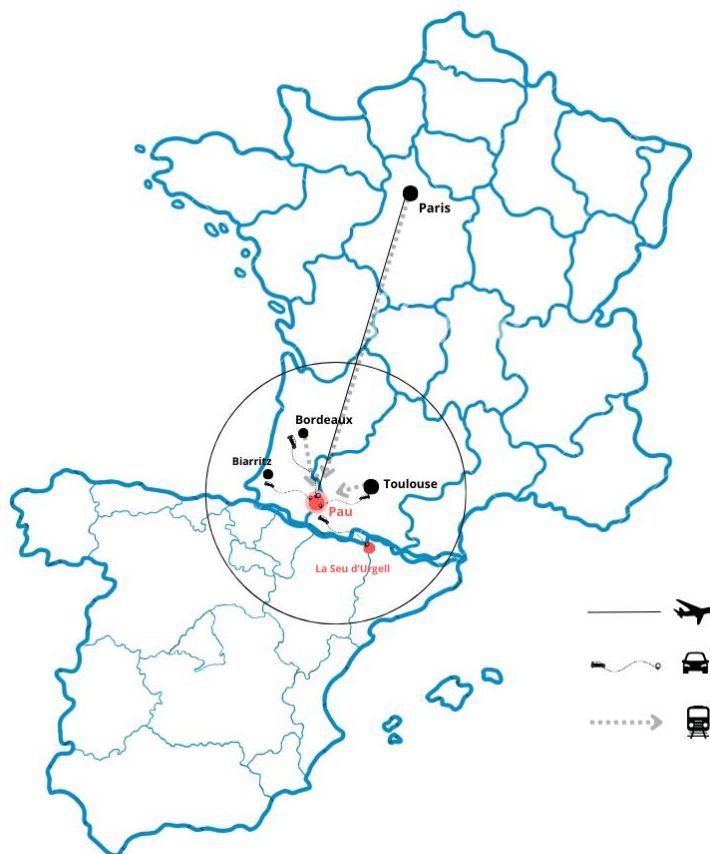

35 minutes from the White Water Stadium

- Direct Paris CDG - Pau (1h30)

Train :

10 min walking from the White Water Stadium

- Direct TGV from Paris (5h)
- Direct ACCESS from Bordeaux (2h) and Toulouse (2h)

How to get from La Seu d'Urgell to

By car

- La Seu D'Urgell - Pau (4h15 - 275km)

By train

La Seu d'Urgell → Porté-Puymorens → Toulouse
Matabiau → Pau (6h30)

How to get to the Seu d'Urgell :

GPS coordinates > lat 42,22N / long 1,28E

La Seu d'Urgell is 10 km from Andorra and 200 km from Barcelona.

Andbus : www.andbus.net/

NB : It is necessary to book the ticket.

- > From airports of Barcelona and Toulouse.
- > From train stations of Lleida and Toulouse Matabiau.

Alsa : www.alsa.es

- > from Barcelona and Lleida's bus stations.
